

# Week Outside Highlights!

My favourite part was when we went cross country skiing because it was my first time and it was fun.

- Noah

I liked playing with the Snow Saws the best because it was fun to make igloos. I even liked roasting marshmallows on the fire and eating hot dogs.

- Duncan

My favourite part about being outside was everything! It was fun to play with our new Snow Saws and to go cross country skiing. We can do more when we are outside.

- Graydon

I liked when we had the fire the best because it was warm and we got to roast marshmallows and hot dogs. I also enjoyed trying to make an igloo!

- Payton

I liked tasting the different teas each day we were outside. On the first day, my Mom sent me with some hot chamomile tea so I would stay warm on that cold day.

- Maverick

I liked eating hot dogs at lunch because they were nice roasted over the fire. I also liked using the Snow Saws because they work really well to cut snow and we could make really big snow blocks with them!

- Elliott

It was nice to go cross country skiing together because we got lots of exercise and it was something I had never tried before. I liked making an igloo, and making a quinsy was also really fun to make.

- Ava

I liked roasting marshmallows on the fire and playing with the Snow Saws because they could break the snow into big pieces to build forts.

- Gloria

I liked when we went to Festival du Voyageur because we went tobogganing and it was really fun. We got hot chocolate and cookies when we got back!

- Mylie

I thought going skiing was lots of fun, even though I fell a lot! I also got to roast marshmallows and stand around the fire which was awesome.

- Abby M.

I liked sitting by the fire and warming up my hands in the school yard. Cutting snow blocks with the Snow Saws was fun because they made it easier to cut with.

- Orry

My highlight was Festival du Voyageur because it was a really great time, and then afterward we got hot chocolate and cookies!

- Kodi

It was fun to use the Snow Saws because we could cut snow to make blocks for igloos and to weigh down our tarps on our shelter. I also liked skiing because it was kind of hard but it was still fun.

- Maddy

I liked when Payton's grandma came to learn about surviving in the winter. We made a shelter in the snow called a quinsky. I also liked when Elliott's step-dad Del came because he made us a shelter and a fire!

- Madeeha

One of the best parts of our week outside was that I learned how to cross country ski! I also liked when Del came because we had a marshmallow roast and a wiener roast for lunch. It was nice to have a fire!

- Béla

My favourite part of our outdoor week was using the Snow Saws because we built forts with them. We could cut the snow and make big snow blocks.

- Gevron

I was only there for two days, but on Tuesday I had a lot o fun skiing. It was kind of hard but I tried my best and even though I kept falling I know I was getting better at it. I want to go again! Rolling down the hill was also fun.

- Ricki

I really enjoyed the French concert we went to at Festival du Voyageur because he did magic and juggling and he played a jaw harp.

- Ry

I like it better outside than inside because we can work on our igloos. I also really liked when we had the fire and our marshmallow roast!

- Jaris
